

NEW MUDPORT SPROCKETS:

# ADVENTURE UNCHAINED

Gates Carbon Drive MudPort™ innovation delivers a belt-drive system for scooters and motorcycles that is expected to increase lifetime in high-debris riding conditions while reducing weight vs. standard sprocket designs.

MudPort is compatible with the entire line of Gates Carbon Drive 11mm pitch polyurethane belts and comes in a range of widths and diameters to fit most two-wheel applications.

Learn more about Gates motorcycle and scooter drive solutions, or schedule your application review with one of our engineers at [Gates.com/mobility](https://www.gates.com/mobility).

## MUDPORT SPROCKETS

- Patent pending port design for debris shedding
- 11mm pitch ideal for ICE and electric two-wheelers
- Optimized tooth profile for smooth performance
- Single or Double Flange options
- Significantly decreased noise and maintenance compared to chains
