

## PARTNERING WITH GATES

MEETING CHALLENGES, PROVIDING SOLUTIONS

[CONTACT US](#)

Dear Customer,

Optimising machine tool efficiency, reliability and productivity is an ever present goal. That's why Gates power transmission and fluid power products are designed and manufactured to **ensure your machine tools operate with maximum precision, to the finest of tolerances and the highest degree of repeatable quality.**

After all that's what your customers want. With Gates components, build compact machines with improved reliability, greater durability, increased uptime and less maintenance. **Bring real value to your customers with lower cost of ownership.**

Our advanced power transmission, TPU polyurethane belts and fluid power portfolio can match specific requirements either individually or as a complete system. And our digital tools - **Design Power** and **e-Crimp** - simplify and speed up the process, so you can design and build with confidence.

Talk to a Gates design engineer to redefine your thinking. [Contact us](#)
