

## Micro-V® Stretch Fit®

Installation Tool: Part - #91031

### ***The Subaru Stretch Fit belt and installation tool. Only from Gates.***

The 2008-10 Subaru Impreza, Forester, and Outback with 2.5L engines utilize Stretch Fit belt technology on the A/C compressor drives. Once again, Gates leads the way as the only U.S. aftermarket supplier to offer coverage for these vehicles. Gates revolutionary TwistLock™ technology ensures peak performance and unmatched durability every time. In addition, Gates has the installation tool available as well! This tool is required for proper installation to avoid damaging the belt. Unlike the OE belt, the Gates tool is available separately so that the technician isn't forced to buy a tool every time a belt is installed.

The best coverage with product and installation solutions that help you do your job right the first time. You expect that from your parts supplier. You count on that from Gates.

# Micro-V® Stretch Fit®

## Stretch Fit Drive Systems Demand New Solutions . . . We Have the First & Only Answer: Gates Micro-V® Stretch Fit® Belts Revolutionary TwistLock™ Technology!

Stretch Fit belts may look like standard V-ribbed belts but inside they are dramatically different. The secret is Gates new TwistLock Technology- where the strength and flexibility of advanced polyamide tensile cord is surrounded by a specially formulated adhesive that literally locks on to the cord- allowing the cord to elongate and stretch but never lose tension.

In addition, our patented highly engineered EPDM belt ribs are extremely resistant to oil leaks, wear and pilling.

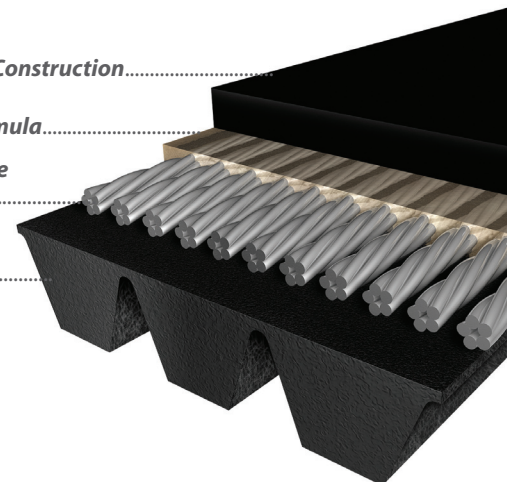

Prior to installation, Stretch Fit belts are shorter than the actual working length, but once they are installed they automatically tension, maintaining the proper tension over the life of the belt and ensuring optimum load-carrying capacity.

Patented EPDM Construction.....

Exclusive Adhesive Formula.....

Super-Strong, Incredibly Flexible  
Polyamide Tensile Cord.....

Patented Aramid-Reinforced  
Undercord.....

## Only Gates Can Cover You with Stretch Fit Aftermarket Leading Coverage
