WE NEVER STOP

Dear Customer,

In a world that never stops, we're here to make sure you don't either. In this new era of Material handling and logistics it has never been more important to find ways to overcome the challenges and gain a competitive advantage.

WE NEVER STOP INNOVATING

Gates delivers state-of-the-art Power Transmission, Thermoplastic Polyurethane (TPU), and Fluid Power solutions that are lighter, more compact, and more efficient.

Whether you're designing rapid, automated systems or keeping equipment running at peak performance, our products offer greater power and load-carrying capacity across a wide range of applications.

The result? Machines that run longer, need less maintenance, protect your people, and keep your operation moving without costly interruptions.

WE NEVER STOP SUPPORTING

Our strong global footprint and in-region accessibility means you can get expert support when you need it.

We've built excellence into every product to optimise performance and protect what matters most, so you can focus on material handling where it matters, and we will take care of the rest.

Speak to one of our experts today to see how we can help.
