CHALLENGES? WE HAVE THE SOLUTION. WE NEVER STOP.

Dear Customer,

With the acceleration of automation and e-commerce, on top of increasing customer demands, optimising the flow of material handling and logistics has never been more important.

Gates deliver high performing solutions for automated applications that increase efficiency and productivity within your supply chain.

In a world that never stops, we're here to make sure you don't either.

Discuss your specific application needs with an expert today and get a free Power Transmission product sample.

Increase your equipment's power carrying capabilities with Gates **PowerGrip GT4** offering a reduced drive width and the widest temperature range capability (-40°C up to 120°C) of any belt in its class.

A combination of advanced materials science and technology has enabled Gates **Poly Chain Carbon Volt** to deliver durability that goes the distance. With our longer length portfolio we offer a cleaner, more compact drive solution for belt changes.

Increased uptime. Lower maintenance. Longer lasting solution. Gates **Thermoplastic Polyurethane (TPU) belts** are available in a variety of sizes and tooth designs for perfectly tensioned belts every time.

Remarkably lightweight and flexible, Gates **MXT hoses** offer faster and easier handling with a robust and reliable performance.

Speak to one of our friendly and knowledgeable experts and find out how Gates can ensure your business never stops.
