

DRIVEN BY POSSIBILITY™

GATES COOLRUNNER™ REFRIGERATION BELTS:

PROTECT YOUR PERISHABLE GOODS

PREMIUM PARTS FOR WHEN FAILURE ISN'T AN OPTION

Gates CoolRunner refrigeration belts are meticulously engineered as OE-exact replacements, specifically designed for systems including Thermo King and Carrier refrigeration units. With premium materials and advanced manufacturing processes, these belts deliver the same fit, form, and function as the original equipment parts.

Don't compromise on quality - choose Gates OE-exact refrigeration belts to **ensure the reliability and longevity of your fleet, protecting your cargo and your bottom line.**

MEET THE EXTREME NEEDS OF ON-THE-ROAD COOLING

FEATURES + BENEFITS

- **OE - EXACT DESIGN:** Ensures precise fit, form, and function for Thermo King & Carrier refrigeration units
- **HIGH QUALITY MATERIALS:** Made from premium materials for superior durability, heat resistance, and extended belt life
- **RELIABLE PERFORMANCE:** Designed to handle the high loads and continuous operation of refrigeration units, minimizing the risk of breakdowns
- **OPTIMIZED CONSTRUCTION:** Delivers consistent power transfer to the compressor, alternator, and fan systems for peak system performance
- **WIDE COMPATIBILITY:** Specifically designed for use in leading brands, ensuring seamless integration

PROTECTING YOUR CARGO - **AND YOUR BOTTOM LINE**

When it comes to refrigerated freight transportation, belts are the lifeline of your vehicles, driving the compressor, alternator and fan to maintain precise cooling essential for transporting temperature-sensitive goods.

A failed or inferior belt can lead to system breakdowns, costly downtime, and spoiled cargo. Gates CoolRunner refrigeration belts are meticulously engineered provide unmatched durability, heat resistance, and optimal performance under the demanding conditions of reefer unit operation.

Don't compromise on quality—choose Gates OE-exact refrigeration belts to ensure the reliability and longevity of your fleet, protecting your cargo and your bottom line.
