

BECAUSE LESS IS MORE

DRIVEN BY POSSIBILITY™

MORE FLEXIBLE = LESS HOSE

From the updated XtraTuff™ Plus cover with abrasion and ozone resistance, to the enhanced wire-braid technology and new compact design, MXG™ 4K delivers big performance in a small package.

FAST. RELIABLE. FLEXIBLE.

You need all the space and flexibility you can get when routings get tight. That's why we engineered MXG™ 4K to be a highly flexible, lightweight, compact hose that goes toe-to-toe on performance with heavy duty spiral.

WEIGHT = SAVINGS

MXG™ 4K hose provides up to 30% weight savings in hose.

UPSIZE YOUR POWER IN TIGHT SPACES

MXG™ 4K allows you to upsize your hose for greater power output without compromising performance, and accommodates routings in smaller engine compartments in modern equipment designs.

BIG PERFORMANCE IN A SMALL PACKAGE

Qualified at one million impulse cycles — 2X impulse life of industry standards for spiral, 5X impulse life of industry standards for wire braid, at 121 °C operating temperature and 1/2 SAE spiral bend radii.

MXG™ 4K

X-FACTOR: EXTREMELY COMPACT
