

DRIVEN BY POSSIBILITY™

JUICE CASE STUDY:

INFERIOR HOSE EXPOSES JUICE TO CONTAMINANTS

EVERY YEAR, MILLIONS OF GALLONS OF JUICE ARE TAINTED BY UNWANTED FLAVOR AND CONTAMINATION.

Ensure the integrity of your juices with Gates integrated system of hoses, couplings and accessories engineered to meet the strictest standards for a hygienic transfer of juice products.

THE TUBE:

- Sanitron tube won't discolor foods or beverages, or impart rubbery tastes or smells.
- Sanitron tube is easy to keep clean.

THE REINFORCEMENT:

- Uniform, non-metallic monofilament reinforcement
- Full vacuum and great flexibility, even at 25°F (-4°C)
- Superior rebound when crushed unlike hardwall wire-helix hoses
- Easy to cut at any length

THE COVER:

- Non-marking cloth-wrapped finish is easy to keep clean
- Diamond-shaped pattern on cover resists dirt, grit and grime
- Monofilament reinforcement offers full suction capability at 72°F (22°C)
- 4-to-1 burst ratio

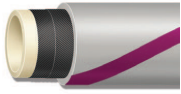

FOOD MASTER™ XTREME™

- Won't impart taste
 - Won't impart color
 - Won't impart odor
-
- Lightweight
 - Flexible
 - Easy to clean
 - Crush- and kink-resistant
 - Meets FDA and USDA requirements
-
- **WORKING PRESSURE:** 250 psi
 - **TEMPERATURE:** -40°F to 230°F (-40°C to 110°C) continuous service
 - **TUBE:** Sanitron™ tube, white
 - **REINFORCEMENT:** Synthetic, high-tensile textile with static-conductive filament & monofilament helix
 - **COVER:** Type P (EPDM), white or gray with burgundy stripe
 - **COUPLINGS:** Food grade, stainless steel

THE HOSES YOU NEED

FOOD-GRADE HOSE

FOOD MASTER™ DRY GOODS (25-40) D

For pneumatic transfer of products requiring a hose with an FDA sanitary hose.

FOOD MASTER™ OILS + DAIRY 150SD MEGAFLEX™

For tank truck, barge, ship or storage tank transfer of a variety of food products such as animal fat, vegetable oil and other edible oils requiring FDA sanitary hose

FOOD MASTER™ BEVERAGE 150SD CR MEGATUFF™

For transfer of juice, soft drinks, beer, wine, cosmetics or water-based products requiring an FDA sanitary hose with superior abrasion resistance

FOOD MASTER™ BEVERAGE

For wine, beer or water based products requiring an FDA sanitary hose. Sanitron™ tube imparts no taste, smell or color.

FOOD MASTER™ XTREME™

For milk, juice, soft drink or other water-based products requiring an FDA sanitary hose at temperatures up to 230 °F (110 °C).

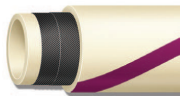

FOOD MASTER™ OILS + DAIRY 150SD

For tank truck or storage tank transfer at temperatures up to 230 °F (110 °C) where an FDA sanitary hose is required. Also suitable for products requiring 3A-Class 3 standards.

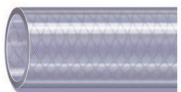

FOOD MASTER™ PVC

For bulk food products via suction, pneumatic or gravity systems where a sanitary hose is required.

FOOD MASTER™ OILS + DAIRY 150D

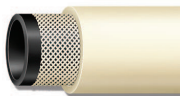

For tank truck or storage tank transfer (discharge only) at temperatures up to 230 °F (110 °C) where an FDA sanitary hose is required.

FOOD MASTER™ PVC CLEAR TUBING (75-250) BRAID

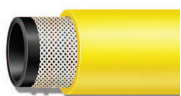

For compressed liquid and air in food and beverage applications. Suitable for potable water transfer.

WASHDOWN HOSE

CLEAN MASTER™ WASHDOWN

For food handling or processing plant washdown service requiring hose with a non-marking cover.

CLEAN MASTER™ WASHDOWN 1000

For high-pressure washer operations using mild detergents. Cover resists weather, oil, abrasion and heat in packing plant cleaning applications. Suitable for air and water service.
